Article Index

Asphaltene Content in Crude Oils and Bitumens, Thin Layer Chromatographic Method for, 165

Carbonate Reservoir Rocks, Some Notes on Wettability and Relative Permeabilities of, 67

Catalytic Hydroliquefaction of Low-Rank Coals, 1

Chalk Pore Geometry Using Resin Casts, A Quantitative Analysis of, 15

Coal Gasification Waste and Their Implications for Disposal Site Design, Regulatory Requirements for Land Disposal of, 357

Drilling Fluids, The Carrying Capacity of, 43

Eastern Oil Shale Retorting: Gas Evolution During Pyrolysis of Northeastern Kentucky Shales, 121

Fossil Fuels by Electric Utilities, Regional Forecasting of the Demand for, 51

Green River Oil Shale, A Discussion of the Chemical Structure of the Organic Matter in, 257

Humic Substances to the Formation of Kerogens in Marine and Terrestrial Environments: An Alternate Approach, The Contribution of, 343

Hydrocarbon-type Analysis of Heavy Oils and Synthetic Fuels by Pyrolysis Thin Layer Chromatography, A Rapid Method for, 151

Lignite-Based Nitrogenous Fertilizers, 87

Maoming Oil Shale Kerogen by Supercritical Gas Extraction, Chemical Structure Investigation of, 237

Methane Gas Production from Anaerobic Digestion in Cattle Manure, 319

Petroleum Asphaltenes and Related Substances by Infrared Spectroscopy, A Study of the Structure of, 203

Petroleum Asphaltenes and Related Substances by Proton Nuclear Magnetic Resonance, A Study of the Structure of, 275

Petroleum Fuels: A Reference Data Base for Assessing Similarities and Differences Between Synfuel and Petrofuel Products, Physical and Chemical Characteristics of Some Widely Used, 377

Petroleum Resource Base, A Concise Mathematical Statement of the Relationship Between the Arps/Robert and Barouch/Kaufmann Models for Estimating the, 33

Reservoir Rocks During Waterflooding, Using Scanning Electron Microscope, Study of the Effects of Various Waters on, 95
Shale Resistivity Ratio Parameter, Classification of Source Rocks on the Basis of, 271
Book Reviews, 77, 177, 305, 403
